

# STUDY PROACTIVELY

## Avoid falling behind with the 5 P's of Productivity

---

1. Predict - Anticipate future challenges and academic hurdles to stay ahead of the curve.

Practice tracking important assignments, and exams!

---

2. Prevent - Take proactive measures to address potential obstacles before they disrupt your study routine.

Start studying a week before exams and take breaks to avoid burnout!

---

3. Plan - Strategize and organize your study approach to maximize efficiency and achieve academic goals.

Organize your study environment to create a productive space!

---

4. Participate - Engage actively in class discussions, group studies, and academic forums to enhance learning outcomes.

Create study groups and collaborate on tough assignments!

---

5. Perform - Execute your study plans with confidence and diligence, taking ownership of your academic progress.

Set and achieve goals!
